

**Last evening, it was dark at 5:30 pm with a relatively clear sky. We feel it is too dark to be out till 6 pm. So, we would like to recommend that the first group start at 3:30 and go to 4:30 pm, with the second group going from 4:30 – 5:30 pm.**

**Signs will be delivered to your building. Please assign someone to bring them back to the building for the next day of waving.**

**On some of the intersections there are signs still up. You can use those signs. If you do, safely store the metal stand and put it back up when you leave.**

**Please pass on the “Rules for Sign Waving”**

### **Rules for Sign Waving**

- **Your safety is our number one priority. Make sure you are in a safe spot to wave.**
- **Make sure you stretch your arms prior to waving. We don't want any L & I claims.**
- **Thumbs up or thumbs down they love us!!**

**Someone once said. “No one cares how much you know until they know how much you care.” Thank you for giving your time once again to show how much you care for our students, school district and community.**

**Bob Lucey**
